Determination of Patent Term Adjustment under 35 U.S.C. 154 (b)
(application filed on or after May 29, 2000)

The patent term adjustment to date is 0 days. If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the term adjustment will be 0 days.

If a continued prosecution application (CPA) was filed in the above-identified application, the filing date that determines patent term adjustment is the filing date of the most recent CPA.

Notice of Fee Increase on January 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

DETAILED ACTION

Remarks

1. The 102(e) rejections to claims 1-4 and 9 are withdrawn in response to applicants' arguments filed 1/16/03.

2. Claims 1-421 are pending in the application.

Examiner's Amendment

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Joseph A. Walkowski (Reg. No. 28,765) on March 28, 2003.

4. The application has been amended as follows:

In specification, page 2, first paragraph, at line 2, replace "1999, pending" with -- 1999, now U.S. Patent 6,346,152 --.

Allowable Subject Matter

5. Claims 1-421 are allowed.

6. The following is an examiner's statement of reasons for allowance:

The prior art of record, Moden to US 5,733,800, in Figs. 2A-2B teaches a method for applying viscous material to at least one semiconductor component, the method comprising:

- providing a pool 36 (i.e. sprue) containing heated resin material 30, the heated resin material pool 36 shaped such that an exposed surface of the heated resin material 30

Art Unit: 2823

is located in a precise location (i.e. the bottom 38 of the pool 36) and including at least one upward facing opening (i.e. the opening facing a plunger 32), the at least upward facing opening exposing at least the exposed surface of the heated resin material 30 (Fig.2A);

- melting the heated resin material 30 by forcing the plunger 32 downward to the pool 36 form a viscous resin material 30 (Fig.2B); and
- forcing the viscous resin material 30 flowing through the bottom 38 of the pool 36 and into the cavity 44 of one semiconductor component 100.

In contrast, the prior art of record at least neither teaches nor suggests: (1) *aligning* at least one semiconductor component *over the viscous material pool*; (2) *wetting a specific location* of the at least one semiconductor component with the viscous material; (1) *biasing* the semiconductor component *downward proximate* the viscous material in the viscous material pool; (2) providing one of a *hydraulic biasing mechanism, pneumatic biasing mechanism, and electrically-powered biasing mechanism* configured to *place* the one semiconductor component proximate the viscous material; (3) *raising* the viscous material pool upward proximate the semiconductor component ; (4) *leveling* the exposed surface of the viscous material prior to wetting a specific location of the semiconductor component; and (5) exposing the exposed surface of the viscous material, the exposed surface of the viscous material having a height that *extends above* the height of the at least one peripheral edge.

Therefore, the claimed invention is neither anticipated nor rendered obvious over the prior art of record.

Art Unit: 2823

7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
